

2009 EYE OF THE STORM

This is the perfect storm of our time. It is projected that we will have 55 million unemployed world-wide by year end. In that same time our national debt should reach 28 million pounds if weighed in one dollar bills, or if laid end to end they would reach the sun and back...5x over.

The primary cause is one we can all do something about..... FEAR. Regrets about the past and worries about the future steal the thing we need most.....TODAY!! Now more than ever we need all of our resources working for us instead of against us. I am not talking about bailouts or stimulus packages but our resources.
